Programming Skills: interface programming, cross-browser compatibility programming, relative and absolute positioning within browsers, GUI design, ColdFusion tags and Application Server, Web accessibility, CSS, W3C validation, object-oriented design, performance tuning code, testing, troubleshooting, debugging, data analysis, research documentation, language encapsulation

Education

Spr. 2007 – Sum. 2007
Austin, TX

Austin Community College

- Intro. to Oracle database (SQL), Oracle database programming (PL/SQL), Web Programming I (JavaScript & XHTML), Java Programming I, Java Programming II, C++ Programming I, Web Design I (Dreamweaver, Fireworks, Photoshop, Flash)
- GPA 3.70

Fall 2003 – Fall 2006
Houston, TX

University of Houston College of Optometry

Fall 1998 – Spr. 2003
Shawnee, OK

Oklahoma Baptist University

BS in Natural Sciences

10/11 – 7/18 Vaperz Cedar Park Owner / CEO Cedar Park, TX

- Developed process to accurately and precisely bottle Vaperz-branded eliquids for use in vape devices in both of our retail brick and mortar stores and wholesale clients.
- Bought wholesale items from suppliers in the US and in China.
- Maintained the records necessary to pay sales taxes, property taxes, and any other financial obligations for the business.
- Used QuickBooks Professional accounting software to organize and take account of the business' transactions.
- Oversaw the laboratory manager and made sure the required raw materials such as labels and bottles were ordered, and inventory maintained.
- Managed 8 employees and prepared paychecks using ADP Run.
- Ensured that all employees were cleaning daily and performing their duties as customer service representatives.
- Maintained and performed all required updates of specific requirements from local, state, and national entities such as the FDA.
- Worked with the property management to pay rent in a timely matter and negotiated leases for both stores.
- Recorded annual gross revenue ranging from \$500k to \$750k.
- Held meeting with employees to discuss changes necessary to develop the business.
- Designed branded labels and screen-printed bottles with the help of a graphic designer.
- Set up booths at various vaping conventions to gain notoriety among potential customers and network with other businesses.
- Calibrated several instruments including the label printer, analytical balance, and pipetters.
- Set all prices for wholesale and retail products.

1/10 – 6/11 On-Line Residential Interface Developer Austin, TX

- Implemented wireframe designs into functional web applications.
- Created advanced queries in MS SQL Server and within Visual Studio for displaying accurate data.
- Developed dynamic web page solutions using Microsoft Visual Studio 2008 for various websites including Sumitomo Real Estate Sales, All Pets Properties, and Park-River Properties, LLC.
- Instituted new functionality for web interfaces such as sprite checkboxes, accordion collapsible sections, and back-and-forth interactivity between Flash maps and checkboxes using HTML, CSS, JavaScript, jQuery, and ActionScript.
- Controlled versioning of the websites worked on through Subversion.
- Worked remotely from Austin daily with co-workers, clients and project managers in NYC.

12/07 – 5/08 Lombardi Software BPD Developer Austin, TX

- Altered the end-user portal such as adding images and changing color scheme using custom CSS from within JSP pages.
- Implemented stored procedures for persisting data to the drop-down boxes of web pages.
- Entered new bugs and fixed existing bugs throughout development using Bugzilla to assess the projects current needs and remove bugs
